Life From Above #1 New York Times bestseller Frozen in Time is a gripping true story of survival, bravery, and honor in the vast Arctic wilderness during World War II, from the author of New York Times bestseller Lost in Shangri-La. On November 5, 1942, a US cargo plane slammed into the Greenland Ice Cap. Four days later, the B-17 assigned to the search-and-rescue mission became lost in a blinding storm and also crashed. Miraculously, all nine men on board survived, and the US military launched a daring rescue operation. But after picking up one man, the Grumman Duck amphibious plane flew into a severe storm and vanished. Frozen in Time tells the story of these crashes and the fate of the survivors, bringing vividly to life their battle to endure 148 days of the brutal Arctic winter, until an expedition headed by famed Arctic explorer Bernt Balchen brought them to safety. Mitchell Zuckoff takes the reader deep into the most hostile environment on earth, through hurricane-force winds, vicious blizzards, and subzero temperatures. Moving forward to today, he recounts the efforts of the Coast Guard and North South Polar Inc. – led by indefatigable dreamer Lou Sapienza – who worked for years to solve the mystery of the Duck’s last flight and recover the remains of its crew.

The Thrillionaire Leading into the 400th anniversary of the voyage of the Mayflower, Martyn Whittock examines the lives of the “saints” (members of the Separatist puritan congregations) and “strangers” (economic migrants) on the original ship who collectively became known to history as “the Pilgrims.” The story of the Pilgrims has taken on a life of its own as one of our founding national myths—their escape from religious persecution, the dangerous transatlantic journey, that brutal first winter. Throughout the narrative, we meet characters already familiar to us through Thanksgiving folklore—Captain Jones, Myles Standish, and Tisquantum (Squanto)—as well as new ones. There is Mary Chilton, the first woman to set foot on shore, and asylum seeker William Bradford. We meet fur trapper John Howland and little Mary More, who was brought as an indentured servant. Then there is Stephen Hopkins, who had already survived one shipwreck and was forced to flee America for allowing himself to drink on Sundays. Inevitably, we meet the only Mayflower passenger with any prior American experience. Decidedly un-puritanical, he kept a tavern and was perished (including the infamous captain Brusilov and nurse Zhdkano, the only woman on board), and, inadvertently, reveals one new piece of information—about the identity of the traitor who left Albanov for dead—that is absolutely shocking. “Poetic.”—The Washington Post • “A lost masterpiece.”—Booklist • “A jewel of polar literature.”—Seattle Post-Intelligencer • “Vivid . . . [a work of] terrifying beauty.”—The Boston Globe

Life - The Epic Story of Our Mitochondria Why should girls miss out on the joy of adventure? They can jump off rocks, swing on ropes, and climb trees just as well as boys can. But girls often allow fear to stand in their way. In The Gutsy Girl, author Caroline Paul emboldens girls to seek out a life of exhilaration. Once a young scaredy-cat herself, Caroline decided that fear got in the way of the life she wanted—of excitement, confidence, self-reliance, friendship, and fun. She has since flown planes, rafted big rivers, climbed tall mountains, and fought fires as one of the first female firefighters in San Francisco. In The Gutsy Girl, she shares her greatest escapades as well as those of other girls and women from throughout history, and offers engaging activities such as confidence-building stances, creating a compass, positive self-talk, and using cricketts to estimate outside temperatures. Each section includes a place for girls to “journal” their adventures, thus encouraging a new generation to develop a zest for challenges and a healthy relationship to risk. The Gutsy Girl is Lean In for young girls, a book about the glorious things that happen when you unshackle from fear and open up to exhilaration. Fully illustrated and enlivened throughout by bestselling illustrator Wendy MacNaughton’s whimsical pen-and-ink drawings.

The Uprooted: The Epic Story of the Great Migrations That Made the American People Everyone has a story. The truth is, most people live as if they were the reader of their own story rather than the author. Passively existing instead of truly living. This lifestyle of wandering aimlessly through life can be a dangerous business, often resulting in cycles of regret, getting lost in the hustle, and worrying about the future. It’s time for a better approach. It’s time to live your adventure. By rejecting the idea that life is just “ordinary,” Tyler Schuetze invites his readers into colorful adventures and practical strategies that make experiencing a meaningful life possible. Each chapter provides the framework and perspective needed to live with purpose, depth, and fulfillment. Through climbing construction cranes, zombie takeovers, and sharing personal stories of overcoming obstacles, The Awkward List calls everyone to explore what it means to take their story seriously and live a life worth remembering.

Lives of the Engineers “Sets a new standard for Western Indian Wars history.” —Stuart Rosebrook, True West Magazine

Winner of the Glider Lehrman Prize for Military History and the 2017 Caroline Bancroft History Prize *Finalist for the Western America’s 2017 Spur Award in Western Historical Nonfiction Bringing together a pageant of fascinating characters including Custer, Sherman, Grant, and a host of other military and political figures, as well as great native leaders such as Crazy Horse, Sitting Bull, Geronimo, and Red Cloud, The Earth is Weeping—lauded by Booklist as “a beautifully written work of understanding and compassion” —is the fullest account to date of how the West was won and lost. With the end of the Civil War, the nation recommenced its expansion onto traditional Indian tribal lands, setting off a wide-ranging conflict that would last more than three decades. In an exploration of the wars and negotiations that destroyed tribal ways of life even as they made possible the emergence of the modern United States, Peter Cozzens gives us both sides in comprehensive and singularly intimate detail. He illuminates the encroachment experienced by the tribes and the tribal conflicts over whether to fight or make peace, and explores the squalid lives of soldiers posted to the frontier and the ethical quandaries faced by generals who often sympathized with their native
enemies. *A Times "History Book of the Year" and A Smithsonian "Top History Book of 2016" • Shortlisted for Military History Magazine's "Book of the Year Award"

Houghton Historical Adventure "Your Life Is An Epic Story" is meant to be a gift book that inspires the recipient to live an extraordinary life by challenging them to write their personal biography one day at a time. This book will remind you to live intentionally, which is the key to experiencing a remarkable life that inspires others. Epic stories inspire us toward greatness. They cause our minds to expand and move us beyond the limitations of our own thoughts. They change us to dream bigger, fight harder, and make the most of the life we've been given. Epic stories remind us that we are not alone. The trials we face in life are common to all people, and they give us hope that we can prevail amidst adversity. If they persevered under conflict, and were able to conquer the opposition, then so can we. Yet, this Epic story does not involve a valiant knight in shining armor, a journey taken through a magical land, or a struggle to save the giants down-sized in this Grove story. This Epic story you are living. This book is a call for you to add pen to paper and inspire us with your life as you inspire us with your words. Be AWARE: This book only has 2 written pages. The remaining 198 pages are blank and expected to be written by the recipient. This is the book you write.

The Classical Age The epic story of the vastly outnumbered platoon that stopped Germany's leading assault in the Ardennes forest and prevented Hitler's most fearsome tanks from taking over American positions On the morning of December 16, 1944, eighteen men of the Intelligence and Reconnaissance platoon attached to the 99th Infantry Division found themselves directly in the path of the main thrust of Hitler's massive Ardennes offensive. Despite being vastly outnumbered, they were told to hold their position "at all costs." Throughout the day, the platoon repulsed three large German assaults in a fierce day-long battle, killing hundreds of German soldiers. Only when they had run out of ammunition did they surrender to the enemy. But their long winter was just beginning. As POWs, the platoon experienced an ordeal far worse than combat-surviving in wretched German POW camps. Yet miraculously the men of the platoon survived-all of them-and returned home after the war. More than thirty years later, when President Carter recognized the platoon's "extraordinary heroism" and the U.S. Army approved combat medals for all eighteen men, they became America's most decorated platoon of World War II. With the same vivid and dramatic prose that made The Bedford Boys a national bestseller, Alex Kershaw brings to life the story of these little-known heroes—an epic tale of courage, duty, and survival in World War II and one of the most inspiring episodes in American history. The Longest Winter is an intensely human story about young men who find themselves in frightening wartime situations, who fight back instinctively, survive stoically, and live heroically.

The Awkward List Often hailed as the godfather of today's elite special forces, Robert Rogers trained and led an unorthodox unit of green provincials, raw farmers, common folk, and Indian scouts on "impossible" missions in colonial America. Rogers learned the stuff of soldiers' legend. The child of marginalized Scots-Irish immigrants, Rogers learned to survive in New England's dark and deadly forests, grasping, as did few others, that a new world required new forms of warfare. John F. Ross not only re-creates Rogers's life and his spectacular battles with breathtaking immediacy and meticulous accuracy, but brings a new and provocative perspective on Rogers's unique vision of a unified continent, one that would influence Thomas Jefferson and inspire the Lewis and Clark expedition. Rogers principles of unconventional war-making would lay the groundwork for the colonial strategy later used in the War of Independence—and prove so compelling that army rangers still study them today. Robert Rogers, a backwoods founding father, was heroic, admirable, brutal, canny, ambitious, duplicitous, visionary, and much more-like America itself.

Lives of the Engineers: History of roads. Metcalfe. Telford "Why do we age? Why does cancer develop? What's the connection between heart failure and Alzheimer's disease, or infertility and hearing loss? Can we extend lifespan, and if so, how? What is the Exercise Paradox? Why do antioxidant supplements sometimes do more harm than good? Many will be amazed to learn that all these questions, and many more, can be answered by a single point of discussion—mitochondria and bioenergetics. This legendary saga began over two billion years ago, when one bacterium entered another without being digested, ultimately creating the first mitochondrion. Since then, for life to exist beyond single-celled bacteria, it's the mitochondria that are responsible for this life-giving energy. Yet, current research has also revealed a dark side; many seemingly unconnected degenerative diseases have their roots in dysfunctional mitochondria. Moreover, however, has also endowed us with the knowledge on how to optimize its function, which is of critical importance to our health and longevity. By reading this book, you are about to dive into this epic story, and learn how to add years to your life, and life to your years."—Back cover.

Your life is an Epic Story (Your Personal Biography) ABOUT THE BOOK Isabel Wilkerson's "The Warmth of Other Suns" is truly a labor of love. It took 15 years to research and write, as she interviewed over 1,200 people. Wilkerson tracked down her subjects at churches, quilting clubs, funerals, family reunions, and others. After preliminary rounds of interviews, she narrowed her search down to 30 people, and then chose the three main subjects who appear in the book. She was racing against the clock to collect as many stories as possible from the migrants, whose numbers were starting to dwindle. The untold story of Japanese civilians who transported Jewish refugees to safety in WWII. The author expresses that nonfiction can also be fun. In her free time, she likes to run at walking pace, haunt libraries, and eat pickles. EXCERPT FROM THE BOOK Critics have put Isabel Wilkerson's book on par with classics like "Roots" and "The Grapes of Wrath". The Wall Street Journal writes, "Ms. Wilkerson does for the Great Migration what John Steinbeck did for the Okies in his fiction masterpiece, "The Grapes of Wrath"; she humanizes history, giving it emotional and psychological depth." (The Great Northern Migration) But Ms. Wilkerson's piece deserves a category of its own. Her book goes beyond both traditional and oral history. She avoided the style of Studs Terkel, opting for a more cohesive narrative. [A Writer's Long Journey to Trace the Great Migration] Critics agree that Isabel Wilkerson's book is both beautifully written and thoroughly researched. Articles in the New York Times, Wall Street Journal, and The New Yorker can attest to that. The book's appearance on Best Book of the Year lists — L.A. Times, The Washington Post, The New Yorker, The Economist, and more — reflects the high quality of reporting. Yet the critics diverge in their assessment of the book and our response to it. As Kevin Boyle writes in his Chicago Tribune review, "In the end, though, Wilkerson herself seems to blink, arguing that, despite the struggles she so beautifully describes, the Great Migration was nothing less than the fulfillment of the American Dream as the migrants themselves defined it." The Longest Winter The definitive modern biography of the great slave leader, military genius and revolutionary hero Toussaint Louverture The Haitian Revolution began in the French Caribbean colony of Saint-Domingue with a slave revolt in August 1791, and culminated a dozen years later in the proclamation of the world's first independent black state. After the abolition of slavery in 1793, Toussaint Louverture, himself a former slave, became the leader of the colony's black population, the commander of its republican army and eventually its governor. During the course of his extraordinary life he confronted some of the dominant forces of his age—slavery, settler colonialism, imperialism and race. The ever-changing stage of his career, from his triumphs against French, Spanish and British troops to his skilful regional diplomacy, his Machiavellian dealings with successive French colonial administrators and his bold promulgation of an autonomous Constitution. Sudhir Hazareesingh shows that Louverture developed his unique vision and leadership not solely in response to imported Enlightenment ideals and revolutionary events in Europe and the Americas, but through a hybrid heritage of creole slave organisations, Caribbean mysticism and African political traditions. Above all, Hazareesingh retrieves Louverture's rousing voice and force of personality, making this the most engaging, as well as the most complete, biography to date. After his death in the French fortress, Louverture became a figure of legend, a beacon for slaves across the Atlantic and for generations of European republicans and progressive figures in the Americas. He inspired the anti-slavery campaigner Frederick Douglass, the most eminent nineteenth-century African-American; his emancipatory struggle was hailed by those who defined imperial and colonial role well into the twentieth. In the modern era, his life informed the French poet Aimé Césaire's seminal idea of nègritude and has been celebrated in a remarkable range of plays, songs, novels and statues. Here, in all its drama, is the epic story of the world's first black superhero.
